

Karl Nordvik Community Park will undergo a renovation this spring. The work will consist of expanding the size of the existing ballfield to accommodate soccer and football and convert the surface to synthetic turf. Renovations will also include the addition of a 28 space parking lot and the reduction of the basketball court to two(2) half-courts.

For any questions or comments call Kelly King, Recreation Superintendent, Community Services Department @ (510) 494-4327, or email @ kking@fremont.gov
